Dr. S. Al-Ismail
Consultant Haematologist
MORRISTON HOSPITAL

Dear Dr. Al-Ismail

Re: Michael O'DRISCOLL dob GRO-C59
GRO-C

I saw your patient in my clinic. I am arranging to remove the right maxillary second molar under local anaesthetic on 14th January. I have arranged for him to come into hospital on 13th so that we can get his haematological side of things sorted out. I would be very grateful if you could attend to this for me. He is being admitted to a side ward in Ward H.

Yours sincerely

C.W. ROWSE
CONSULTANT ORAL SURGEON
