I spoke with Seamus and family. He declined care in hospital at this time but said he will ask his G.P to refer to community social services if his needs increase. Sister (Tina) is taking Seamus to her home in **GRO-C** for a few days on discharge. She asked for advice should Seamus become unwell while in **GRO-C** - I provided her contact details for Oncology 24 hour helpdesk in Ward 50. The ward manager recommended Tina ring an ambulance if Seamus becomes very unwell.

GRO-C; J. Kohoe
