GRO-B

Dear Dr **GRO-B**

Re: **GRO-B** DOB: **GRO-B** 59
GRO-B

I reviewed this patient in clinic today and note his past medical history of alcoholic liver disease. He claims he is no longer drinking and feeling much better in himself. He's had no recent episodes of blackouts or tremors and is quite physically active.

His most recent LFT's and alpha feta protein levels are well within normal and we will discharge him from clinic on this occasion. However, he will be seen by the Orthopaedic doctors concerning his knee and lower spinal problems.

Yours sincerely

Dr G Polo
Locum Registrar to Dr B D Linaker

Chairman: Norman L Banner

Chief Executive: Paul Cronin
