Dear Doctor,

GRO-C, I.O.W.

For your information, I enclose copies of:-

- 1) His bleeding episodes and transfusions so far this term
- 2) Laboratory results

He was tested for Anti HTLV 3 for the first time on 12.1.84 and was found to be positive.

Lee attends physiotherapy regularly for general exercises particularly to his right elbow which has maintained its normal range of movement.

Yours sincerely,
