Dr. G.H. Tovey,
SW Regional Transfusion Centre,
Southmead Road,
Bristol BS10 5ND.

Dear Geoffrey,

Factor VIII Concentrate

Thank you for your letter of 18th July, from which I note that you are planning to increase the amount of fresh frozen plasma to the previous level of 100-120 packs per quarter. This will be most helpful.

We are arranging to send Dr. Scott monthly 20 bottles each containing 250-250 units.

Yours sincerely,

GRO-C

W. d'A. Maycock.

c.c. Dr. Ellis
