**ADVISORY COMMITTEE ON THE VIROLOGICAL SAFETY OF BLOOD**

We have now received approval for the formation of this new committee from all UK Health Ministers. The terms of reference and proposals were agreed as drafted.

Of the proposed membership however, Dr Urbaniak of the Scottish NBTS has had to stand down for personal reasons, and SNBTS have nominated Dr R Mitchell instead. The list is enclosed.

You may now wish to write to the proposed membership, and a draft letter is attached for your consideration please. A conference room has been provisionally booked for 10.30am on 6 March in Hannibal House, subject to members' availability.
