Zubeda,

Can you firstly check that this is for us and then see if you can identify which report the person is referring to and sort out the background to this. I don't think Anna has attached any previous documents so you may have to go back to her.

Happy to discuss

William

Carol Grayson has called public enquiries - see below. I have searched the PO database and can't find the letter referred to. The most recent PO is 5008660 (attached for reference). I don't know the details of the situation or the 'informal internal report' she is referring to, but press office brought a press cutting from 'The Journal (Newcastle)' round to me which says that Carol Grayson wanted to meet SofS and raise among other things "a Government admission that it has deliberately pulped papers relating to blood transfusions given to haemophiliacs in the 1970s, and the possibility of affected patients getting liver transplants"

I don't think I am the right person to talk to her about this as I don't know all the background about this internal report. Could you please give her a call to discuss her inquiry and let me know the outcome of the conversation.

Many thanks

Anna

210-4892

As discussed, customer is chasing up an 'informal internal report' due three years ago. She had a letter from MJ saying civil servants were being asked to chase this up. The contact details are below.

Carol Grayson
