18th April, 1972.

Dear Dr. Maycock,

Thank you for your letter of the 14th April.
The hospitals at the bottom of the table state that
their clinicians insist on blood being crossmatched
for patients who eventually are not transfused.

A special working party is to look into our demands
for more space. I do not know how this will be pro-
vided. The construction of another floor will be very
inconvenient.

With kind regards,

Yours sincerely,

Dr. G.W.G. Bird,
Director.
