Scottish National Blood Transfusion Service
Protein Fractionation Centre
Ellen's Glen Road
EDINBURGH, EH 17 7 QT

Dear John,

██████████, ██████████ (dob ██████████)

I was lucky enough to obtain another two bags of haemophilic plasma from this good man last Tuesday, 22nd August. Moira Patterson agreed that the 250 tubes involved could wait and be dispatched on 6th September when your large vehicle calls. He has offered to return on 19th September and I saw no reason to refuse this largesse on his part.

A severe haemophiliac, (██████████) who is ██████████ in ██████████, has also offered to donate but so far he has not managed to attend as he had to receive Factor VIII for a severe bleed in his right knee two days before the appointed date for plasmapheresis. The donations to date should "buy some time" until some of my Glasgow colleagues get their severe haemophiliacs organised to attend the Plasma-pheresis Suite at Law, but this is said more in hope than in good faith re. real action.

Yours sincerely,

GRO-C

Dr. Iain A. Cook
Regional Director

cc Miss Moira Patterson
