JDC/EP

24th March 1986

Dr R J Perry
Director
Protein Fractionation Centre
Ellen's Glen Road
EDINBURGH

Dear Dr Perry

Northern Ireland Contract

I regret to inform you that despite formal representations within the Agency and the Department no resolution to the funding of our work for the NHS has emerged for the financial year ending 31st March, 1987.

We are both aware that this work is putting an increasingly heavy burden on the development of the SNBTS's services for the SHS as a whole and I must therefore advise you to ensure that all possible steps are taken to contain the supplies of PFC products to Belfast for 1986/87 at the 1985/86 level.

I would further advise that you make this decision known to Dr Morris McClelland, Director of the Transfusion Service in Belfast.

Kindest regards,

Yours sincerely

John D Cash
