Mr Gidden

TREATMENT OF HAEMOPHILIA -- AHG CONCENTRATE

Dr Owen has seen your minute of 9 December 1974, and has agreed the submission. He would like one change made to the suggested new standard reply for MPs. In place of the second paragraph you propose he would like inserted suitably amended versions of the first and second paragraphs of the draft letter to regional administrators which you also submitted for approval. He has commented that, "it is time MPs knew the full arguments"; he would like to know if there is any objection to this.

With reference to paragraph 4 of your minute Dr Owen has commented, "I agree that we should not court publicity".
