Subject: HEPATITIS LITIGATION

I nhave heard from Deas Mallen Souter. They want to give us until 31st January to disclose our documents. What do you think? Dr Metters says he left all his papers with his successor. It would appear that they have been shredded because they represented an inconvenience. If you can replicate them I wont hold a post mortem. Anthony Mallen was at pains to point out that he hadn't leaked anything to the Observer. There is no love lost between him and Graham Ross.
