Dear Mrs Murphy

Thank you for your message. I can assure that I am in close dialogue with Lord Morris about this and indeed had a long telephone conversation with him only yesterday about tactics. The first plan was to try to get an MP who had been drawn high in the ballot for Private Members' Bills to adopt the Bill in the Commons, but this was not successful. It would have been the best way to secure Parliamentary time for the Bill. Failing that I have tabled an EDM simply calling on the government to ensure the passage of the Bill into law before the end of this Parliament. For this to be effective we shall try to get so many signatures (ideally half of the Commons) that the Government cannot ignore it. It is a large task which we are currently engaged upon. In addition to this we shall of course use as many other Parliamentary techniques as we can to press the case. It is a large task but this is one legacy which I would like to leave when I retire at the end of this Parliament.

Yours sincerely

Eddie O'Hara

Subject: Lord Morris Bill

Dear Mr. O'Hara,

As Chairman of the APPG for Haemophilia and my MP I am asking for you to put down a private members bill in support of Lord Morris's

Contaminated Blood (Support for infected and Bereaved Persons Bill). We need the support of as many MPs as possible to get this bill passed, Lord Morris has worked so hard over many years to try and get justice for the Haemophilia community, so with your help and other MPs we may just be able to help Lord Morris achieve success. The Haemophilia community owe Lord Morris a huge thank you for being so loyal to us, may I also thank you for supporting me over the past 15 years.

Thanking you

Mrs. Maureen Murphy
