Subject: Re: Draft

Submission, Contaminated Blood Products and Hepatitis C

Dear Linda,

CMO has looked at this report. He says that he agrees with its rigourous analysis, and that its conclusions seem sound.

If you wish to include a comment on CMO's views when putting to ministers, then please use the wording above.

Best wishes,

Richard

Submission, Contaminated Blood Products and Hepatitis C

Richard, Mike

The attached draft submission has been seen and cleared by policy colleagues and Liz Woodeson. Would you please arrange for comment from David Harper and Liam Donaldson by the 23rd February, prior to my putting the submission to MS(PH) and MS(Q) w/c 26th February.

We have consulted with SOL, DCA and DHFOI team throughout. Both the submission and the report on the review of documents are with them for final clearance but I am confident that they will be cleared with little/no change.

Regards  
Linda
