GRO-B

Dear Mrs. M

I spoke to Dr. McAndrew this morning and he is going to send you an appointment card to see him for further discussion and tests. He is also going to contact the Haemophilia Centre at Oxford so that they are aware of your family.

As regards precautions GRO-B is only very mildly affected and therefore won't need any long-term treatment and should continue living normally. At the moment in the event of an accident such as a car accident or a surgical operation he would need to have an injection which can be obtained from the Pathology Lab. here but the doctors concerned would deal with that.

May I take the opportunity of wishing you all a very Happy Christmas.

Yours sincerely,

GRO-B
