cl. Cut himself with bread knife early evening,
② index finger, wife unable to stop bleeding.

O/E 1-1½ cm long cut on ② index finger oozing
blood.

Registrar informed:-

Rx topical thrombin - cut a little deep for this to
have effect.

Pressure bandage - using gauze & crepe bandages.
This seems to be effective.

Patient not shocked, feeling fairly well.

To admit overnight - observe bandage for oozing.
