St. Andrews House,  
Edinburgh.

rec 105

Dear Dr. Smith,

I am enclosing a copy of a letter which I am sending to Mr. Gumley reporting on the two meetings which I attended in Paris.

In view of recent developments in the plasma fractionation field, Dr. Cumming and myself feel that it might be well to give some thought to the future development of the fractionation unit here.

I expect Dr. Cumming will be discussing this with you once we have gone over the various considerations in more detail.

With best wishes for Christmas and the New Year,

Yours sincerely

GRO-C

Drummond ELIOT Ph.D.
