Dear Dr. Evans,

re:

GRO-A

GRO-A did not return to the college after the half term holiday and I am not at all certain if he will return for the Autumn term.

For your information, I enclose copies of:-

- 1) His bleeding episodes and transfusions so far this term
- 2) Orthopaedic chart
- 3) Laboratory results

AIDS related investigations:

Clinically he exhibits none of the stigmata of AIDS apart from 5 kg. body weight loss this term.

Examination of his superficial lymph nodes on 16.3.83 revealed a palpable left inguinal lymph node.

For your information, we have undertaken the enclosed AIDS related tests. We will be repeating them if he returns to the College.

Yours sincerely,

GRO-C

M. Wasset
