Dear Sirs

Application for Variations to:  
PL 0231/0038 Factorate  
PL 0231/0044 High Potency Factorate

With reference to the letter from Dr M E Duncan dated November 26th, 1984 and the undersigned's subsequent meeting with her on December 19th, 1984, we enclose applications (two copies of each file) to vary the above Product Licences. The variation relates to the inclusion of a heat treatment stage in the processing of the products. Much of the information presented has already been assessed by the DHSS in relation to our CTX and PL applications relating to NANB hepatitis (CTX 0231/0070A and PL 0231/0072).

It is understood that such applications as these are being considered a priority by the licensing authority in view of the general situation relating to A.I.D.S. in the UK. We look forward to hearing from you in the near future. If additional information is required or any query arises please contact the undersigned or Mr S J Hince.

Yours faithfully

GRO-C

C J Collins  
Regulatory Affairs Manager
