 Consultant Haematologist,  
 The Children's Hospital,  
 Ladywood Middleway,  
 Ladywood,  
 BIRMINGHAM, B16 8ET.

Dear Frank,

You will note from the enclosed copy letter that I have paid our first 1985 donation to your research fund to the Finance Department of the Central Birmingham Health Authority.

We continue to be very interested in the progress of this project, and of course, its extension into HTLV-III screening of children who have been treated with non-treated and latterly Heat Treated Factorate.

I hope to be able to visit you soon after Easter at your convenience, to discuss the current status of your research and the recent Hepatitis B problem. I feel that I must notify the DHSS of your findings and would appreciate a report on the final outcome, including the investigations of your virology department into the actual materials associated with the development of clinical signs and/or antibody production.

Kind regards,

Yours sincerely,

GRO-C

R. B. Christie,  
DIRECTOR OF CLINICAL SCIENCES
