INTER OFFICE MEMORANDUM

 **BERK**
Pharmaceuticals Ltd

TO : Mr W Brzeski

FROM : Miss A S Clark

SUBJECT : FACTORATE HEAT TREATED

DATE: May 16, 1986

REF: ASC/TB/1743/86

COPIES TO :

Mr A Allison
Mr : Bishop
Mr R B Christie

File
Day

The Factorate data sheet has recently been amended to include details of heat treatment and testing for antibodies to HTLV III virus. Therefore, please arrange to update the leaflet to include the following statements at the end of the section on composition and standardisation:

This product has been heated at 60°C for 30 hours. This step has been introduced in order to reduce the risk of transmission of infectious agents.

All units of source plasma are tested for antibodies to human T cell lymphotropic virus type III (HTLV III) and found to be negative.
