Mrs. J. Boulton,  
Bayer U.K. Limited,  
Pharmaceutical Division,  
Haywards Heath,  
West Sussex. RH16 1TP.

Dear Mrs. Boulton,

Koate Product Licence.

Thank you very much for your help on Thursday. My visit to the Department of Health and Social Security was 'Plain Sailing' apart from the flap about the 'omnibus' undertaking signed by Cutter. The Department of Health and Social Security appeared to have lost the original.

When I handed over the MLA201 they asked me to acknowledge their earlier correspondence to yourself and gave me the dates of several letters. Two of these letters were missing from your files, dated 7.11.75., and 4.3.76. If these were not proprietary in nature perhaps you would be good enough to supply them since I have signed to follow their instruction.

Also I would like to see Dr. Andrews reply to your letter of the 27th February 1976, in order to judge whether or not he accepted your comments re labelling, particularly how he wants the 'pool size' to be indicated.

I look forward to hearing from you.

Yours sincerely,

GRO-C
