#### HIV HAEMOPHILIA LITIGATION

We spoke about your submission of 19 April which the Secretary of State has now seen. As you will have inferred from this morning's discussion, the Secretary of State is content for you to convey the Government's final offer as soon as possible to the Plaintiff's solicitors; and for payments to be made on receipt of a letter of discontinuation.

It was also agreed this morning that you would let the Secretary of State have a detailed note on the position of the other patients who are alleged to have been infected by contaminated blood but are not haemophiliacs.
