Date

7 November 1977

You wrote on 28 October about the continuing problems at the Protein Fractionation Centre.

I certainly think we should get together to discuss your proposals fairly soon. I am about to depart for Hong Kong on official business but I should be back in the office in the week beginning 21 November. Would you therefore kindly get in touch with my colleague, John Lewry GRO-C to arrange a convenient time.

As there are a number of implications for incomes policy in the main points you raised I think representatives of Department of Employment and Treasury should also attend. I am therefore copying this letter to Mike Cahill (DE) and Ivan Wilson (Treasury), together with a copy of yours, and to Susan Maunsell and Mr Parrott (DHSS).
