10th May, 1978

Dear Dr. Phillips,

Annual Returns for 1977

Could you clarify a couple of points regarding your Annual Returns, please?

1. How much material was used to treat your Christmas disease patients? On form A(1) under the column headed "F.IX units (for Christmas disease patients)" the figure 8,400 was entered against cryoprecipitate and no figure was entered against NHS Factor IX concentrate!

2. Form A(2a) states that 72,000 units of Factor IX concentrate were supplied to Christmas disease patients on home treatment. Could you let me know the name of the patient(s)? It would appear from Form A(3) that neither Stephen COX or Arthur HENSTRIDGE were on home treatment.

Yours sincerely,

(Miss) R.J.D. Spooner
Research Assistant

Dr. M.J. Phillips,
