Date 16 February 1981

Dear Mr Williams,

Following our discussion on the telephone some time ago, about the reactions some of Dr Aronstam's patients had experienced following the confusion of Humanate, I asked Dr Green of Bournemouth if he would mind trying some on one or more of his patients. He agreed to do so, with the unfortunate results outlined in his letter, a copy of which is enclosed.

It seems, therefore, that I shall be unable to use this material and will be grateful if you will arrange for a refund. The stock remaining is:

240 i/u x 85 vials = 20,400 i/u

400 i/u x 224 vials = 89,600 i/u

Yours sincerely,

GRO-C

B Grundy  
Administrator.
