East Street,
Bingham,
Nottingham, NG13 8DR.

Dear David,

Factor VIII Concentrates - Non A, Non B Hepatitis

I write to advise you that we have recently had two patients who developed Non A, Non B Hepatitis from presumably Factor VIII therapy. It may be that you will wish to investigate the batches of Humanate involved.

Both patients received treatment with SNBTS Edinburgh Factor VIII Concentrate, Profilate and Humanate. The batch numbers of Humanate were 1805 and 2802.

I am pleased to report that both patients are doing well and the hepatitis is receding.

Kindest regards,

Yours sincerely,

GRO-C: Dr J F Davidson
