Dear Dr. Aronstam,

GRO-A

Thank you for writing about GRO-A. I am glad that he is now ready to get onto the home treatment programme. He was giving himself his own injections at home sometime ago. We used to use to Hemofil and at present are using Factorate and Hemofil for our home treatment patients. I do not think it matters very much which product you use so long as the boys realise that they may need to change their concentrate from time to time.

Yours sincerely,

GRO-C
