Dear Dr. Harris,

re: Lee STAY **GRO-C** 68

I saw Lee in the clinic. He is well with no problem such as bleeding although he is not on factor VIII prophylaxis. I am checking his hepatitis C RNA and we will review him in 3 months' time.

Yours sincerely

**GRO-C**

Dr. S.G. Harris,

**GRO-C**

Hants.

Dear Dr. Harris,

re: Lee STAY **GRO-C** 68

Lee is quite well with no complaints. His PCR RNA is positive indicating that he has the viraemia and I have told him this. I am checking his full blood count, CD4, LFTs and U & Es and we will see him again in 3 months' time.

Yours sincerely,

**GRO-C**
