Dear MRS LINDA KITSON

Patient Name: LINDA KITSON

NHS Number:

GRO-C

Hospital Number:

DOB:

GRO-C;1951

Address:

GRO-C

Bradford

GRO-C

Appointment Date:

13 JUN 2018

I am writing to you today with the results of the bloods taken in clinic.

Your hepatitis B viral load is 13,000 IU/ml and your ALT is within normal range at 37 therefore showing no clinical signs of inflammation in the liver.

I have spoken to the doctor that you saw and he has confirmed that he remains investigating LGI and your blood transfusion and we will see you back in clinic in 6 months' time.

Yours sincerely

No action by GP surgery - under hospital care
