Liz

Letter to Jane Ellison. As this is a letter to an MP it can be made public by a Freedom of Information request so we just as well put it in full on our website. It is clear what our view of the management of McFarlane and Caxton charities is.

Annual Review. Reading this makes it clear just what a success you have been for the Society. I now have a completely different perspective of what the Society is now able to do compared to my thoughts after my first meeting in November 2013.

Subject : RE: my objectives and an update

Hi Alan,

I hadn't thought of it from that perspective, so thank you for highlighting it. My thinking was it may upset people even more to hear what is said behind closed doors that is so disrespectful, when at the moment there is nowhere else for people to go for support.

However if the general feeling is we could do as much harm as good then publishing it makes more sense.

Can people let me know what they think over the weekend and I will publish, or not on Monday? If I publish it tonight I will spend the weekend on Facebook and answering comments from people who are outraged or distressed, so Monday makes more sense.

As a few people said they would like to see my annual review with Bernard I have attached it too.

Have a good weekend all

Liz

Subject: RE: my objectives and an update

Hi

Thanks for that Liz.

Regarding whether we should report the comments Jan Barlow made about more people dying before a settlement is reached, this comment will come out sooner or later, and I am not sure that beneficiaries would understand any reason why this comment could not be reported to them from the Board of the Haemophilia Society, and I feel we would not be thanked for keeping it from them, in fact the opposite could happen and beneficiaries become very hostile to the Haemophilia Society for withholding such important information..

I strongly believe beneficiaries of Macfarlane Trust and Caxton have every right to know just what this woman has said about their plight, especially as she is Chief Executive of both Macfarlane Trust and Caxton Foundation and it was in that capacity that she made the comment. If the Board decide not to report these comments Barlow made, I would like it recorded that I was strongly in favour of reporting her comments.

With Best Wishes

Alan

Subject: my objectives and an update
Date: Thu, 19 Feb 2015 13:55:29 +0000

Dear all

Please find attached my draft objectives for you to look at and comment on, as you know it took a while last time, but Bernard and I have based these on last years. If you have any comments please let Bernard or I know and we can discuss any changes. We can the sign them off at the next Board meeting. It is probably useful for you to know that Bernard and I also met to do a performance review of last year and have a formal write up, so I am happy to share that if anyone wants to see it.

I have also been in touch with Community Action Southward to look at possible dates for the governance training. They can do all the dates I offered them around our next few board meetings, so could you fill in the doodle poll with your availability, I will get this booked.

NOT RELEVANT

I also wanted to let you know the letters have gone to Jane Ellison with all the CC's and to Jan Barlow, and should both have been received by now. I will let you know when I have a response. I think we should share the recommendations from the letter to Jane Ellison with our members and on Facebook, but am also concerned it could cause distress with the quote from Jan, so I would like to do a report of the fact we have written, with our recommendations, but not share the whole letter. Before doing this I wanted to get your agreement, as we didn't discuss this in the Board meeting, and it is your letter..

Liz
