12th December, 1984

Dear Patient/Parent,

There has been much publicity in the press and television about the HTLV III virus and AIDS. Dr. Forbes, Director of the Glasgow Haemophilia Centre, and I are holding a meeting to discuss with patients some of the anxieties and issues that have been raised. You, along with a member of your family are cordially invited to this meeting which will be held in the Large Surgical Lecture Theatre, Royal Infirmary, Edinburgh on Wednesday, 19th December at 7.30 p.m.

Dr. Forbes and I will each speak for a few minutes on AIDS, Haemophilia and Blood Transfusion. We shall then open the meeting to questions and general discussion. If you do not wish, or are unable to attend the meeting, but would like to talk to me, or another member of the Haemophilia team, we should be delighted to see you by appointment with my secretary.

With best wishes,
Yours sincerely,

GRO-C

C.A. Ludlam
Director, Haemophilia Centre
