pls deal Jan 24/1*

Dear John,

### Supply of Plasma to the Blood Products Laboratory

I am responding to you, as requested, on John Shaw's letter of the 18th December addressed to Peter Cooke and copied to other Regional Administrators.

In this Region we accept in principle the proposals for increasing the supply of fresh frozen plasma to the Blood Products Laboratory, and the implications of this for the planning of the new Laboratory.

We will be considering the timescale for meeting our target, but I think it unlikely that we can achieve this before we have our new Regional Transfusion Centre in about three or four years' time.

Yours sincerely,

GRO-C

A. B. Baker.

Mr. J. M. Rogers,  
DHSS,  
Euston Tower,  
286, Euston Road,  
LONDON.
