## MEMORANDUM

From: Mr E Frank

To: Dr A E Robinson  
Dr Townley

Date: 3 January 1985

### A.I.D.S Leaflets and Documentation

All the old posters have either been used or destroyed. From memory the sequence of events was:-

1. After many delays the grey A.I.D.S leaflet became available in late 1983. This was distributed on session supported by a poster of our own production inviting donors to read the leaflet.
2. In late 1984 or early 1985 it was decided that a leaflet should be sent with every invitation. See attached sample letter and note dated 12.2.85. This procedure was to last 6 months (Note dated 1.8.85)
3. In September 1985 a revised leaflet was produced and again every donor was required to have one before donating. (Note dated 27.9.85)
4. For something like 2½ years we have used the "data post" invitation which has regularly been A.I.D.S updated for public normal donors.
