Dear Anne

Re: **Donation No.** **GRO-A**

I know it's a nuisance, you have seen these Hepatitis C 'Look Back' forms before, but I'm afraid every so often we discover information about another donor who is now Hepatitis C positive and has donated blood in the past. I would be very grateful therefore if you could let me know whether you can identify the recipient of this donation and complete the form as far as possible. I am sorry to trouble you again, but as you know we did identify some recipients who could potentially benefit from anti-viral treatment in the past and I feel I must make every effort to discover the recipient of this donation.

With best wishes and thank you for your help.

Yours sincerely

GRO-C
