Dr P Flanagan
Clinical Director
National Blood Service
Bridle Path
Leeds LS15 7TW

Dear Peter

Re: HCV Look-back Study

Thank you for your letter in connection with the above.

The only hospital with low returns is Blackburn Royal Infirmary, Haematologist is Dr Newsome.

Thirty seven yellow forms were sent to him - so far 17 returned (15 - no trace, 2 - dead).

I have enclosed my letters to him as you suggested.

Yours sincerely

Dr K H Shwe
Consultant Haematologist

Blackburn BB2 3LR

Dear Dr Newsome

I was asked by Dr Flanagan to contact the haematologist in the Lancaster area from whom we are still awaiting yellow HCV LBF1's Look Back Forms.

I would be most grateful if you could send me back outstanding yellow forms from your hospital.

I have asked Mr Roy Yates to ask you if I can help you filling these yellow forms which I believe that you have all the cases notes for these forms.

Please let me know if you are agreeable to my suggestion.

Yours sincerely

Dr K H Shwe
Consultant Haematologist

Dear Dr Newsome

Re: HCV Look-back Study, Yellow Forms

I am still waiting for the yellow forms to return from your hospital; so far I have not received any back from you.

I have given you 34 yellow forms in connection with the above study.

Please kindly let me have the completed forms, the ones that you have so far completed.

I am now being asked by the Northern Zone Clinical Director to provide the information on the above study patients as a matter of urgency.

Thank you for your help.

Yours sincerely

Dr K H Shwe
Consultant Haematologist
