

National Headquarters
Washington, DC 20006

March 4, 1986

Dear John,

In response to your February 17, 1986 query about anti-HBc testing, I am enclosing a copy of a communication issued to all Red Cross regional blood services that indicated that American Red Cross will not make changes in donor testing directives at this time.

We are conducting a review of the subject of anti-HBc/ALT donor testing at national headquarters on March 7, 1986. I'll send you an update on our position after that review.

With best regards,

Sincerely,

GRO-C

S. Gerald Sandler, M.D.
Associate Vice President
Medical Operations

John D. Cash, M.D.
National Medical Director
Scottish National Blood Transfusion Service
