Dear Sheila

I'd recently received a telephone call from the Skipron Fund, requesting to update my details and enquiring if I needed additional support pertaining to eligibility of the Stage 2 payment, as I received Stage 1 payment back in 2004.

The Skipton Fund application form requests the specialist doctor to provide evidence of the extent of my current liver disease based on tests or medical history.

I have enclosed the application form, with a personal request, as to whether Dr. George would be able to support and complete this current application.

It may be that you may require additional tests from me to meet the specific requirement, and I can offer my availability at your earliest convenience as I am no longer in employment.

I'm generally well though fatigue is increasingly settling within me this last 2 yrs.

Thank you kindly for your consideration of this request.

Yours faithfully

GRO-C

P.s. I'm also aware that within next 3 months, I'm due to visit the dept. for routine care and management.
