Dear GRO-D

Paul Le Bourn, GRO-C  
DOB 17/03/50, Hospital Number 0297145

I wonder if you can advise me about counselling and Hepatitis C. This patient has very severe emphysema and may be going for lung transplantation in the foreseeable future. We have been asked to counsel him about Hepatitis C, but he is an extremely anxious man and I do not want to raise yet more fears in his mind.

I would be very grateful for your comments about this.

With best wishes,

Yours sincerely,

GRO-D

Consultant Physician
