Haematology

-20 → 500 fests

Unid superficial swelling ↓.

Could be cut to get to please review

No N/V def.

GRO-C

24/12/91 -

Haematology -

② Knee / leg unchanged today from how it has appeared over last several days. We decided to ↓ FVIII to x1 daily from yesterday (1/2 Dr. Kaye myself as now 2/52 post op).

② Knee was more painful yesterday but better today -

To give FVIII - 4 bottles x1/day in morning.

Stop 9c heparin.

GRO-C

27/12/91 -

Haematology -

Has persuaded staff to give him 4 bottles b.d. over last 2 days!!

Denies he instigated this himself - says "someone" arranged this since my last note of 24/12 -

1/2 = Prof Klemmman this am - he is happy with wound -

To continue on FVIII 4 bottles x1/day
Check FBC.

GRO-C

29/12/91 -

Bleeding from op. wound over last 2 1/2 -

② Knee seems more swollen + remains painful

rechecked

② knee -

Rx: b.d. FVIII 3 bottles after 4 this am.

Review tomorrow.
