8/6/92

Ofw Dr Hay, Consultant Haematologist, who
is not at all happy for this man to have a
fuller liver wfu and considers it essential to
restrict investigations to OGD x Sclero + anything else
vital. Clearly prognostic indicator assessment is
not vital; cannot do OGD x Sclero now. ∴
readmit 28/6/92 for same 30/6/92.

Fully explained and apologised to Mr Murphy
