Anti-HCV Screening

Thank you for your FAX of 22.1.91. We could start routine testing by April, given the financial support for 2 additional members of staff. Without this support, we cannot. Development funds granted to RHAs have been devolved to Districts in this Region, but I do not foresee that Districts will collectively be able to provide us with the 0.6 million pounds required to finance this exercise.

With kind regards,

Yours sincerely,

GRO-C
