15 MAR 1979

Dr. Kernoff,
Haemophiliac Centre,
Royal Free Hospital,
Pond Street,
London.

Dear Dr. Kernoff,

Enclosed is the allocation list of our Factor VIII for this year:
I hope this provides the information you require.

According to our records none of these have been returned.

If you find this helpful I will collect the numbers each month
in this way.

Perhaps Mrs. Britten^E could also have a copy for the yearly
returns.

Yours sincerely

Sister A. George
Haemophilia Co-ordinator

Brentwood, Essex,
CM15 8DP

Dear Annette,

Re: RFT January/February concentrate figures

I have just gone through the allocation list and your figures of amounts issued which you sent, with your letter of 13th March, to Dr. Kernoff.

Please would you come to discuss these with me as soon as possible? None of us can understand the allocation list, especially the bits from 31.1.79! We are also puzzled by the totals of units you give for both months - in each case they are double what the individual figures indicate.

Please note how my name is spelt.

I was so glad you came to the Society's Council meeting last Saturday. Gill and Sheila spoke well, didn't they?

Yours sincerely,

GRO-C

(Mrs.) M.I. Britten

Survey of Patients Treated at Haemophilia Centres in the U.K.

Annual Return for 1979

of materials used to treat patients having haemophilia or Christmas disease****

P.B.A. Kernoff &

Centre: ROYAL FREE HOSPITAL

Director: E.G.D. Tuddenham

Total number of haemophilic patients treated during the year*: 130

Number with Factor VIII antibodies: (total 14) 12

Total number of Christmas disease patients treated during the year**: 26

Number with Factor IX antibodies: 0

Total amount of material used to treat these patients during the year:-

Type of Material Used	No. of bottles etc. used	Amount used (units of activity)	
		F.VIII units (for haemophilic patients)	F.IX units (for Christmas disease patients)
PPF)for plasmaphereses	12		
Plasma	22		
Cryoprecipitate		655,850	
NHS Human Factor VIII Concentrate		593,165
