Dear Paul

I refer to my letter of 18th July.

I would be grateful if you could let me know in writing what progress is being made on the issues raised. Now that the MPs are back after the summer recess we are being asked what is happening.

Our members are still getting replies from Tom Sackville saying the Government is considering a range of potential initiatives to improve the understanding, treatment and management of hepatitis C. We would like to be able to give our members some answers.

Yours sincerely
