PROFESSOR SIR ROBERT SHIELDS' CLINIC: 27.04.94

28th April, 1994,

Dr. M.S. Feld,

GRO-C

LIVERPOOL

GRO-C

Dear Dr. Feld,

Re: Mr. William Murphy: dob GRO-C 1934
GRO-C, Liverpool GRO-C

I reviewed this gentleman in the clinic today on behalf of Professor Shields.

Unfortunately, his left scrotal swelling persists and has now become hard. He is finding it extremely uncomfortable and is unable to sleep at night because of the discomfort. He is also, effectively, house-bound.

Examination shows that his scrotal swelling has become very firm and is now no longer transilluminable. It is difficult to know exactly what the contents are, certainly they are not fluid at the moment and I am therefore not trying to aspirate it.

I gather he is due to have an ultrasound scan on the 19th May and as this is some time hence, I will try to expedite matters.

Yours sincerely,

DR. C. BUTCHER,
SENIOR HOUSE OFFICER TO
PROFESSOR SIR ROBERT SHIELDS.
