Dear Dr Shina

Re: GRO-A DOB: GRO-A 1940  
GRO-A London GRO-A

This gentleman's 24 hour blood pressure monitor shows a daytime average of 143/88 mmHg and a night time average of 147/78 mmHg. There are no periods of hypotension.

This is probably just at the upper limit of acceptability. If he was happy to have his blood pressure control optimised, I think a small dose of Moxonidine would do the trick.

Thank you again.

Yours sincerely,

Dictated and electronically checked

Dr. G. Coghlan MD FRCP  
Consultant Cardiologist

CC: Mr GRO-A
