GRO-C

18/7/86

Came in because of a skin lesion on
the left side of face. Looks

like tinea barbae.

Given Amestene cream for it.

GRO-C

2.9.86

Still having resistant tinea barbae and started
to have toe nail fungal infection, was
very worried about having these fungal infections
that keep recurring at different sites. I
explained that because of his HIV status he
will tend to have a longer course than expected.
Started him on Griseofulvin 250 mg b.i.d. for
six weeks.

GRO-C
