DATE

(Each entry must be signed)

2/ plethoric. 2/11/80. no nodes mouth clean.

p 50

np 140/90

chest clear.

1 cm.

1 1/2 cm.

thick++.

→ bloods.

to come early July with wife
to discuss HIV test results.

int's all normal mov't.

new in 1 yr.

GRO-C

Sean @ TP Annual Review

AIDS discussion

Med. train concern of had to
have treatment would verify
H AIDS discussed 1) test

2) treatment

Material / blood collection
Felt should have test results.
No lead though. Wife also
concerned re AIDS

See. Sit wife has U.U.'s + back
problems. Rel. lead now as
total tachycardia

Assessment. Little understanding
of AIDS / HIV / AB +
differentiation b/w the 2.

1/7/86 Sean for follow-up + test
results — given by ES: 199.
says had explanation to
wife re treatment / blood
results not 100%.
Still unsure re treatment of
test. Says now "good news"
to see again 24/9/86
assessment appears still
to be unresolved ? not clear
