20th September 1974

Dr Rosemary Briggs  
Oxford Haemophilia Centre  
Churchill Hospital  
Headington  
Oxford OX3 7LJ

Dear Rosemary

This is in reply to your letter of 16th September asking for a supply of the International Standard for Blood Coagulation Factor VIII. I think that you should know that the material we are at present distributing (67/19) has given a positive reaction in screening tests for hepatitis B antigen. If, nevertheless, you are prepared to use this material on your own responsibility, please sign and return the attached letter and we will send it forthwith.

Yours sincerely,

GRO-C

D R Bangham

I phoned Dr Riggs to explain this clearance  
procedure. 40 amps of the 2<sup>nd</sup> British IS  
and 20 of the 1<sup>st</sup>. The will be sent  
on receipt of ~~your~~ this letter. I hope it's enough  
- let me know if not.

I missed you at Basle.
