Dear

AIDS LEAFLET

As was mentioned at the meeting of Regional Transfusion Directors that I attended in April, a redrafted version of the AIDS leaflet has been considered in the Department. I am now sending you copies of the new draft which attempts to strengthen the message in the earlier leaflet.

I would be grateful if you could let me have the comments of your Divisions with any amendments which you consider necessary. It would be most helpful if I could receive the responses by 6 July.

The number of cases in the UK compared with the number in the United States will be updated accordingly when we are nearer to final publication.

With many thanks.

Yours sincerely

cc Dr Gimson
Mr Williams
Mr Arthur
